

GoodHealth - Metrics Summary

Fictional financial and operating metrics for Memo Pilot demo. Prepared as a text-based PDF for extraction.

Document Type: Financial Summary

Revenue and Retention Metrics

Metric	2023	2024	2025	2026 Projection
ARR	\$2.1M	\$4.4M	\$8.0M	\$13.5M
Customers	52	101	180	290
Average ACV	\$40K	\$43K	\$44K	\$47K
Gross margin	61%	65%	68%	72% target
Net revenue retention	112%	119%	124%	126% target
Gross retention	88%	90%	91%	92% target

Revenue Mix

Segment	Share of 2025 ARR	Notes
Mid-market clinics	55%	Core ICP; strongest product-market fit and shortest implementation path
Specialty practices	28%	High authorization and follow-up volume; strong workflow pain
Regional health groups	17%	Larger deals but longer sales cycles and heavier integrations

Unit Economics and Sales Motion

Metric	Current value	Comment
Median sales cycle	4-6 months	Regional groups can take 6-9 months
Implementation timeline	6-10 weeks	Depends heavily on EHR integration complexity
Professional services attachment	62% of new customers	Services support onboarding and workflow configuration
Top 5 customer concentration	31% of ARR	Customer concentration should be reviewed before investment decision

CAC payback	Not provided	Missing evidence; should be requested from management
Rule of 40 estimate	Approx. 150% using 82% YoY ARR growth and positive contribution margin trend	Needs validation using audited financials

Management Notes on Growth

- 2025 ARR growth was driven by new clinic logos, expansion to additional locations, and cross-sell of follow-up workflow modules.
- Management expects gross margin to improve as implementation templates, partner integrations, and customer success playbooks mature.
- Implementation services remain an operational constraint and may limit near-term scalability if not standardized.
- The company is exploring partner-led onboarding for smaller customers.

Finance Diligence Gaps

- Audited financial statements were not included in the provided packet.
- CAC payback, magic number, burn multiple, and logo retention by cohort were not provided.
- Gross margin split between software subscription and services was not provided.
- Detailed churn reasons by segment were not provided.
- Pipeline conversion rates and quota attainment were not provided.
